| EARS Strong, moderately thick and erect, color                 | 05  |
| same as body<br>BODY Large, long and flat, hind quarters broad | 05  |
| and large showing good meat qualities                          |     |
| LEGS & FEET Large, strong and straight                         | 05  |
| SIZE As large as possible,                                     | 16  |
| WEIGHT Bucks should not weigh less than 11                     |     |
| pounds; Does should not weigh less than 13                     |     |
| pounds, and as much more as possible                           | 14  |
| COLOR Solid throughout entire body above and                   |     |
| below. Head, Ears and feet all to match                        | 20  |
| COAT Shall be even, thick and fine for best fur                |     |
| quality  | 15  |
| CONDITION Good solid flesh                                     | 05  |
|  |     |
|  | 100 |
|  |     |

Above standard to include solid Black, White, Grey, Red, Brown and Blue.

#### NEW ZEALAND RED HARES

NEW ZEALAND RED HARES should be judged by above standard as near as possible. They should be bred to a rich solid dark red and be a giant in size.

The weight table for raising the young should be the one used for the Flemish.

#### CHECKERED GIANTS (German)

#### (German Standard)

| BODY AND LENGTH Well rounded body, with      |   |
|--|---|
|  | 5 |
| WEIGHT Bucks to be not less than 11 pounds,  |   |
| and Does to be not less than 13 pounds2      |   |
| SHAPE AND HEIGHT Long shapely body,          |   |
| standing upright in a lively position 1      | 5 |
| EARS Firm, to stand erect, solid in color 1  | 0 |
| COLOR MARKS AND FUR Markings similar to      |   |
| the English but much heavier and without the |   |
| chain marks. The fur should be medium        |   |
| length and even 2                            | 0 |
| CONDITION Vigorous and good health 1         | 0 |
|  |   |
| 10   | 0 |

Note:—This breed is one of the popular utility rabbits of Germany, used for meat and fur.

The weight table for young is the same as for the Flemish.

#### HAVANA

| EARS Erect and neat shape, fine in substance, |    |
|---|----|
| solid brown color                             | 10 |
| EYES To match body color showing red light in |    |
| pupil   | 05 |
| SHAPE Small fine boned neat small head shape- |    |
| ly long body                                  | 15 |
| SIZE From five to six pounds                  | 05 |
| FEET Straight and slender, toe nails to be    |    |
| brown   | 10 |
| COAT Short, even, fine with silky gloss, good |    |
|   | 15 |
| COLOR Rich Chestnut brown or Tobacco Color    |    |
| throughout entire body, under color shows     |    |
|   | 35 |
| CONDITION                                     | 05 |
|   |    |

100

This rabbit is used in France for the fur. The brown color is a very desirable color as it can be used as an imitation of many of the more valuable furs.

### IIIMALAYAN RABBIT

Density of color, color divisions as sharp as possible without blending, size and shape of marking. NOSE Smut as large and round as possible. covering about one-third of the face, but not EARS Colored from base to tip, with clear white space between ..... 15FORE LEGS From the toe to the knees solid black, the pads under the foot are lighter...... 15 HIND LEGS Same as fore legs, only more im-FUR Quality fine, short and glossy ...... 10 SHAPE Body long, small and compact, no dewlap, ears erect, fine limbs ...... 05 WEIGHT Four to five pounds, not over five, CONDITION 05

100

Note:—When the young Himalayan is borne it is pure white, in two weeks a little smut appears on its nose and increases gradually, the color of the

Legs and tail appears next, and that of the ears appears last, all growing darker until 5 to 6 months when the full color is attained.

#### **IMPERIALS**

| EYES Large and bright, deep blue color, to                 |     |
|--|-----|
| match the color of the body                                | 05  |
| EARS Erect $4\frac{1}{2}$ inches, round at tips, set close |     |
| together at base   | 15  |
| HEAD Narrow tapering in graceful lines, not                |     |
| too large  | 10  |
| FEET Straight and strong, color to match the               |     |
|  | 05  |
| SHAPE AND SIZE Similar to the Belgian but                  |     |
| shorter limbs. Six to seven pounds                         | 25  |
| COLOR Dark blue even in shade throughout                   |     |
| entire body  | 25  |
| COAT Rather long haired, soft and bright                   | 10  |
| CONDITION Healthy; firm, hard flesh                        | 05  |
|  |     |
| 1  | .00 |

Note:—The color known as blue in all animals is similar to that of our common maltese cat.

#### THE JAPANESE RABBIT

The Japanese Rabbit's color is intended to represent the rising sun and has circles running around the body at irregular intervals; the bands forming the circles are not regular in size or width; the circles represent the sun's rays and the under color the sun.

| IRREGULAR MARKINGS Or an unequal dis-        | •   |
|--|-----|
| tribution of the color bands                 | 30  |
| UNDERCOLOR Distinct and shiny, from cream    |     |
| and egg gold to a brick red                  | 20  |
| SHAPE Rather short and thick set with strong |     |
| limbs, weight about 8 pounds                 | 20  |
| EARS AND HEAD Undercolor to match body       |     |
| and spotted over with black patches          | 10  |
| FUR To be thick and even                     | 10  |
| CONDITION                                    | 10  |
| -  | 100 |
| · · · · ·                                    | 100 |

Defects are unclear color of bands showing a mottled appearance. Under color fading out till it shows pure white spots.

| ance   | 20 |
| COAT Smooth and close without corrugations     | 10 |
| EYES Large as posible and bold                 | 10 |
| EARS Drooping nature but not fallen            | 10 |
| SIZE Large, well proportioned                  | 10 |
| CONDITION                                      | 10 |
|  |    |

100

The above standard applies to solid Black, Cream, Chocolate, Blue, Red and White.

The color must be solid carried down to the roots of the hair. The ears and feet in all varieties must match the body.

### **DUTCH MARKED CAVY**

This variety uses the same standard and the markings take the same position as the Dutch Marked Rabbit. (See page 4.)

#### HIMALAYAN CAVY

Use Standard and Marking of Himalayan Rabbit (See Page 10.)

#### TORTOISE AND WHITE CAVY

| PATCHES Clean, clear cut and distinct      | .25 |
|--|-----|
| Equal distribution with uniform placing of | f   |
| the patches                                | .10 |
| COLOR Black, red and white, even color     |     |
| throughout each patch without blending     | 20  |
| SHAPE Head and shoulders broad and heavy,  |     |
| nose Roman not pointed or ratty in appear- |     |
| ance                                       | 15  |
| EYES Large as possible and bold            | 05  |
| EARS Drooping but not fallen               | 05  |
| SIZE Large well proportioned               | 10  |
| COAT Smooth and close without corrugations | 05  |
| CONDITION                                  | 05  |
|  |     |

100

The colors should be black, red and white, equally distributed and in as small patches as possible, each color clear and distinct, without being intermixed one with another. The ears may be one, two or all three colors. This standard also applies to the other tricolors.

#### TORTOISE SHELLS

| PATCHES Clear and distinct | 45 |
|----------------------------|----|
| EYES Large and bold        | 10 |
| COAT                       | 10 |
| SHAPE, SIZE AND CONDITION  | 20 |
| COLOR Black and Red        | 15 |

100

The colors should be black and red, equally distributed in distinct patches, the smaller and more uniform the better.

### AGOUTI COLORED CAVY GOLDEN AND SILVER GREY

| COLOR There are two shades. The golden        |     |
|---|-----|
| should be rich golden brown undercolor with   |     |
| even ticking throughout, belly color should   |     |
| be deep red. The grey should be a light       |     |
| shade with even ticking, belly should be of a |     |
| silver hue, free from any sign of golden or   |     |
| siver inde, free from any sign of golden or   |     |
| bronze tint, feet to match body in both       |     |
|   | 20  |
| TICKING Guard hairs that are tipped with      |     |
|   | 25  |
| EYES Large as possible and bold               | 10  |
|   | 10  |
| SHAPE Head and shoulders broad and heavy,     | ~ 0 |

#### STRIPED SKUNKS

The standard to be same as above except first paragraph which should be as follows:

Star on head as round as possible covering top of head. Stripes running from star to end of body, even one inch wide throughout. Tail, about three inches of white on tip. Markings to be pure white without yellow tints, rest solid black.

 $\mathbf{26}$ 

### SHOW RULES

Application to hold show under National Pet Stock Association Rules must be made in writing at least thirty days before show, also guaranteeing that the rules will be faithfully observed. Sanction for clubs or associations to use these rules may be granted by the Secretary of N. P. S. A. with consent of board.

All entries must be made in the name of the owner, owners or corporation.

An experienced Pet Stock man must be in charge at all times during the show as handler and care for the stock.

No stock shall be handled by any one except Judge, Owner or Handler.

All entries must be absolutely the property of the exhibitor also to have been owned by him 60 days prior to date.

A junior rabbit must be under six months of age; a junior Cavy must be under four months of age.

No Judge shall compete in a class where his decision is to be given, nor shall he pass judgment on stock that he recognizes as having been in his possession during the previous year.

Show managements shall refuse to receive diseased animals and see that they are not kept in show room.

In case of apparent error in awards exhibitor may enter protest provided they deposit at least \$3.00 with written protest with secretary of show who shall take it up with management. If not sustained the money and protest must be forwarded to the Secretary of the National Pet Stock Association and referred to the board for final action. If protest is sustained the money will be returned, if not it will be retained.

#### Instructions for Premium Lists and Show

#### Committees. Not necessary to be printed.

All pet stock must be judged by a National Pet Stock Association licensed judge.

A true copy of all awards must be sent to the Secretary of the National Pet Stock Association without delay.

The show management must see that proper food is placed in the shipping crates for the stock on their return trip.

Entries shall close on the day and the hour advertised.

Judging shall begin promptly at the hour advertised unless in exceptional instances.

Any person guilty of fraudulent practice must be reported by the Judge and disqualified by the Association; any person so disqualified is not entitled to exhibit at any of the sanctioned shows or act in any capacity.

Premium Lists must state if prizes are open to the world or just to specified Association members.

Judging to be done by comparison method.

The price of the entry fee to be printed in heading of Pet Stock Department.

Premium lists should contain announcements of all pet stock meetings during show, if none, they should set a Pet Stock Day, preferredly the third day of the show.

### CLASSIFICATIONS

#### Admitted Standard Varieties

For premium lists, use the breeds first then include as many varieties as desired.

Four classes may be allowed for each breed and for each variety if desired; they are adult male, adult female, Junior male and Junior female, a class of a mother and young may be added, but is not recommended and they must not be allowed to count in points towards a sweepstake or best display prize.

#### RABBITS

| SKUMKS |                          | en                        |

Other fur bearing animals should be encouraged by making classes for them at the shows.

# GENERAL DISQUALIFICATION

Lopped ear in any variety except lop eared rabbits.

Screw tail, or tail that has deformed bone or is firmly set to one side. This does not mean a lopped tail or one that falls slightly to one side then resumes its natural position, lopped tail should be penalized but not disqualified.

Crooked feet, Bowed legs, Knocked knees, or deformed in any way.

Over-age specimens entered in junior class. Rabbits over 6 mo., cavies over 4 mo.

Off color spots, such as spot of white in black where it should be solid, off colored or stray hairs should count against, but not disqualify, unless there are enough in one place to make a distinct spot.

Over weight specimens in small breeds.

Eyes not matching each other.

Eyes not matching body or other than color called for.

Faking, such as plucking, dyeing, triming, or Castration or spaying.

evidence of using foreign substance on coat.

Absence of important color spots.

Torn ears, if there is a portion missing or large slit one inch or more the specimen should be disqualified, if slit should be penalized. according to size.

Specimens not owned by exhibitor.

### Note:-

The color of the cover of this book or a shade lighter was selected as the official color of the N.P. S. A. so that all members could paint their shipping coops the same color and they would be recognized at once as pet stock carriers which would be a help to Superintendents of shows when separating them from poultry, etc. and would give our stock better attention.

A number of our members are engaged in the railway service and they would readily recognize the coops and see that they get the best of attention.

It is also recommended that members paint on their coops" Return to (name and address) member of N. P. S. A."

It is also recommended that you paint Hutches and Houses the same color so your place may be easily recognized from the road, street cars or train.

This is an economical color as it can be produced with white lead and oil, adding a very little lamp black until you get the right shade.

Wm. I. Lyon, Past President.

Waukegan, Illinois
